Subject: Microsoft settlement

To whom it may concern,

It is time to resolve the Microsoft suit. The settlement is fair in all regards. Only a need to gain the upper hand in the marketplace keep opponents of the settlement motivated. The best interests of the consumer are served by this settlement. There is no need to further strip away Microsoft's ability to compete. It must be noted that the initiation of the DOJ suit coincided with the "bursting of the technology bubble". It is time for the DOJ to help put the economy and free trade back on track.
